

GTs Cashloader

The GTs Cashloader has been designed to enable value loading into Papercut MF through cash, card and contactless payment forms. With a simple curved aesthetic and secure yet ergonomic peripheral layout, the GTs is ideally suited to a variety of educational settings.

The software has been designed to ensure quick easy payments with maximum uptime. The software consists of the following features

- Various payment types : Coins, Notes, Chip & Pin, Contactless, Paypal
- Enable/disable denominations
- Swipe/contactless login
- Onscreen keyboard
- Configurable receipt printing
- Email Alerts, all errors and cash levels
- Full cash auditing, with cash up report
- Full Guest Account functionality

The software can also be modified to suit most requirements.

Features

The GTs Cashloader peripherals consist of

- Dual Coin Mechanism
- Note Acceptor
- Receipt Printer

Optional

- Chip & Pin with Contactless
- Mifare/HID/Swipe Reader
